

Xerox Product Response to CERT[®] Vulnerability Note VU#516825: Integer overflow in Sun RPC XDR library routines

The primary audience for this document is Xerox analysts and customers who want information regarding how Xerox products respond to [CERT[®] Vulnerability Note VU# 516825](#), issued by CERT[®] on March 19th, 2003. The following sections provide excerpts from the CERT[®] advisory and the corresponding Xerox response.

Background

The CERT[®] Coordination Center (CERT/CC) is a center of Internet security expertise at the [Software Engineering Institute](#), a federally funded research and development center operated by [Carnegie Mellon University](#). CERT[®] studies Internet security vulnerabilities, handles computer security incidents, publishes security alerts, researches long-term changes in networked systems, and develops information and training to help you improve security at your site.

[CERT[®] Vulnerability Note VU# 516825](#) states the XDR library from Sun Microsystems is a widely used implementation for RPC services. Although the library was originally distributed by Sun Microsystems, multiple vendors have included the vulnerable code in their own implementations. Some implementations of standard functions in this API may contain an integer overflow.

Xerox Product Response

The table below lists various products and their positions with respect to [CERT[®] Vulnerability Note VU# 516825](#). This document will be updated with additional product information as it becomes available.

Product	Response to CERT[®] Vulnerability Note VU# 516825
CentreWare Network Scanning Services	CentreWare Network Scanning Services is Windows-based and is not, therefore, affected by this vulnerability.
CentreWare Network Services	CentreWare Network Services is Windows-based and is not, therefore, affected by this vulnerability.
DigiPath	DigiPath does not use the Sun RPC XDR library and is not, therefore, affected by this vulnerability.
DocuColor 1632/2240	DocuColor 1632/2240 products are affected by this vulnerability. Patches are in process and will be announced when available.
DocuColor 3535 with EFI Network Controller	The DocuColor 3535 with EFI Network Controller does not use the Sun RPC XDR library and is not, therefore, affected by this vulnerability.
DocuColor with CREO front-ends: <ul style="list-style-type: none"> • DocuColor 2060/2045 with CSX2000 • DocuColor 3535 with CXP3535 • DocuColor 6060/2060 with CXP6000 	DocuColor products with CREO front-ends do not use the Sun RPC XDR library and is not, therefore, affected by this vulnerability.

Product	Response to CERT® Vulnerability Note VU# 516825
DocuColor Windows NT based products with EFI front-ends: <ul style="list-style-type: none"> • DocuColor 12 with X12 • DocuColor 12 with EX12 • DocuColor 12 with XP12 • DocuColor40 with X40 • DocuColor 2045/2060 with EX2000 • DocuColor 2045/2060 with EX2000d • DocuColor 2045/2060 with EX2000v • DocuColor 6060 with EXP6000 	DocuColor products with EFI front-ends are not affected by this vulnerability.
DocuColor Windows XPe based products with EFI front-ends: <ul style="list-style-type: none"> • DocuColor 3535 with EX3535 	DocuColor Windows XPe based products with EFI front-ends are Microsoft Windows based and are not, therefore, affected by this vulnerability.
Document Centre products (200, 300, 400 and 500 Series)	Document Centre products do not use the Sun RPC XDR library and are not, therefore, affected by this vulnerability.
DocuPrint N Series products	DocuPrint N Series products do not use the Sun RPC XDR library and are not, therefore, affected by this vulnerability.
DocuSP-based products	DocuSP-based products are affected by this vulnerability. Patches are in process and will be announced when available.
Phaser products	Phaser products do not use the Sun RPC XDR library and are not, therefore, affected by this vulnerability.
WorkCentre M35 WorkCentre M45 WorkCentre M55 WorkCentre Pro 35 WorkCentre Pro 45 WorkCentre Pro 55 WorkCentre Pro 65 WorkCentre Pro 75 WorkCentre Pro 90 WorkCentre Pro 32 Color WorkCentre Pro 40 Color	These WorkCentre products do not use the Sun RPC XDR library and are not, therefore, affected by this vulnerability.
